## EXCELLENCE, THROUGH INNOVATION AND ORIGIN

**X-CUT**  
Advanced optical measurement and high-precision manufacturing deliver premium cuts characterized by unmatched brilliance.

**HOTFIX GLUE**  
The variable temperatures at which Hotfix glue can be activated enable the application of crystals on a broad range of textiles.

**PLATINUM PRO**  
With its new advanced foiling technique, Swarovski has set a new standard in the lifespan of crystals.

**CRYSTALS - MADE IN AUSTRIA**  
The combination of innovation with sustainability and respect for individual wellbeing means that quality is always assured.

## PREMIUM, BY SERVICE AND DESIGN

**DESIGN SERVICE**  
Throughout its global network of Design Centers, Swarovski offers exceptional service provided by the industry's best creative talent.

**GLOBAL SERVICE**  
Swarovski's Global Service Network provides customers with dedicated personal assistance on a local level.

**APPLICATION SERVICE**  
A comprehensive range of application services means customers benefit from the extensive experience of leading international experts, as well as internal specialists.

**DESIGNER EDITIONS**  
Creative collaborations with top designers result in exclusive cuts and unique designs for Swarovski crystal.

## COMPLIANCE, WITH INTEGRITY

**ADVANCED CRYSTAL**  
Swarovski's patented lead-free\* formula has changed the DNA of crystal while still offering the same sparkle, dependability, and variety for which Swarovski is famous.

**CLEAR**  
Regular legal monitoring of chemical requirements and reasonable testing provide customers with the comfort of trust in Swarovski's products.

\*Crystal glass and all other materials containing 0.009% lead or less.

**OEKO-TEX**  
Oeko-Tex® Standard 100 Class II (direct contact with skin) certification creates confidence in chemical safety of textile applications.

## Seal your success

## EXTENDED ASSORTMENT

To provide even more assortment variety in color, effect and sizes, we now offer selected items as "Extended Assortment". For these items we guarantee availability for at least 12 months after launch date under regular ordering conditions (1 packing unit). "Extended Assortment" articles are marked with "□" within the respective product matrix. Please check on available quantities with our Customer Service or online via our e-commerce website [B2B.ECOMMERCE.SWAROVSKI.COM](https://B2B.ECOMMERCE.SWAROVSKI.COM). Additional product information can also be found on our business website [SWAROVSKI.COM/PROFESSIONAL](https://SWAROVSKI.COM/PROFESSIONAL).

ATELIER MUNSTEINER FOR SWAROVSKI

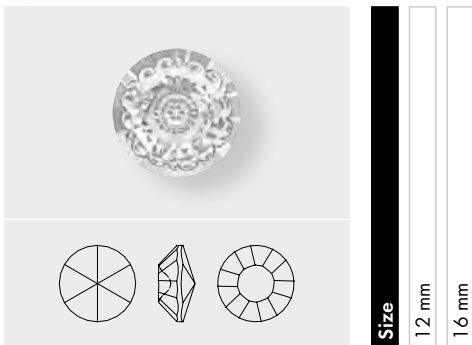

Vision Round Stone and Vision Fancy Stones

The new Vision Designer Edition marks the first ever collaboration between Swarovski and Atelier Munsteiner, a German design house renowned for its multi-award-winning gemstone cuts, fine jewelry, and sculptures. The family-owned company's third-generation master craftsmen have drawn upon many years of experience to develop this stunning crystal innovation exclusively for Swarovski.

The Vision Designer Edition combines the uncomplicated appeal of simple cuts with the playfulness of mirrored reflections. These ingeniously crafted design elements bring to mind frozen water, with mysteriously encapsulated air bubbles forming a perfectly geometrical, flower-like shape within the crystal. It is available in three of the most popular shapes for Jewelry and Accessories - the round, square, and hexagon - offering endless design possibilities and making it ideal for use in Glamorous and Progressive creations.

It's the subtlety in the simplicity that makes this Designer Edition truly "VISIONARY."

## Vision Round Stone

---

### APPLICATION ADVICE

If applying the article to a solid material, a cavity should be created. Cavities can be produced either by drilling or by milling. It is recommended to create cavities with a flat bottom to protect the crystals' foiling and to achieve a good bond.

For detailed information concerning cavity dimensions and technical drawings, please contact your local Swarovski sales organization.

Please check the surface tension of the carrier material before gluing. Detailed information concerning surface tension, pre-cleaning and possible adhesives can be found in the Application Manual and on our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

---

### CARE INSTRUCTIONS

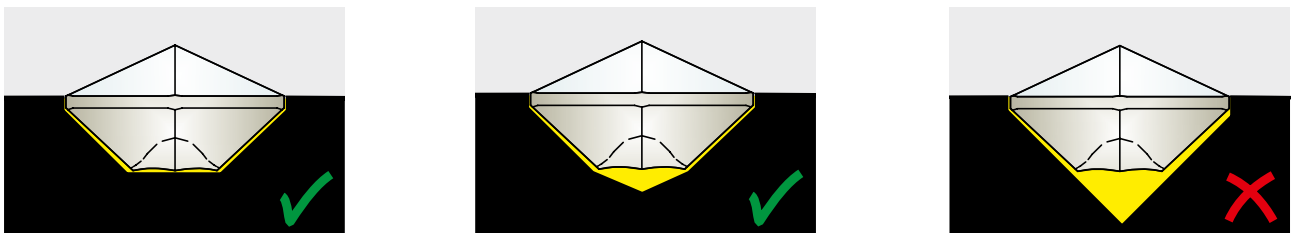

The care instructions for the Vision Round Stone are the same as those that apply to the Round Stone assortment. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

## Vision Hexagon Fancy Stone & Vision Square Fancy Stone

---

### APPLICATION ADVICE

The Starlet Flat Back Hotfix and the Curvy Flat Back Hotfix can be easily applied using a standard heat press. The use of an ultrasonic device for single-stone setting is not possible. For articles smaller than 8 mm in diameter, the application parameters for Creation Stones apply. For bigger sizes, the application parameters are the same as those that apply to Creation Stones Plus. These items are not suitable for application from the front.

### CARE INSTRUCTIONS

The care instructions for the Starlet Flat Back Hotfix and the Curvy Flat Back Hotfix are the same as those that apply to Creation Stones Plus from the Flat Back Hotfix assortment. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

### APPLICATION ADVICE

Heart Sew-on Stones can be applied by hand or using a domestic or industrial sewing machine. When sewing Heart Sew-on Stones, synthetic multifilament threads with a thread count of Nm 80 are most suitable due to their abrasion resistance. Monofilament and pure cotton yarns are not recommended due to their limited abrasion resistance.

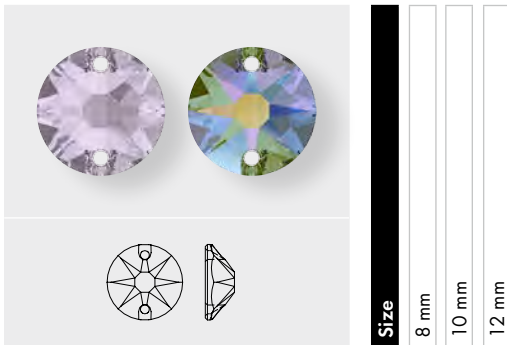

Please make sure that the transport system is deactivated to avoid any movement of the fabric. After selecting the over edge stitch, the length and width of the stitch must be adjusted to suit the element being applied. Due to the height of the article, using a program for sewing on buttons is not possible and it can only be applied without a standard presser foot.

### CARE INSTRUCTIONS

The care instructions for the Heart Sew-on Stone are the same as those that apply to the Sew-on Stone assortment. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

**SPECIAL MOTIF SERVICE**

A special motif is a design created by the customer which is different from the Crystal Medley Standard Collection. This service opens up many customization possibilities and enables you to benefit from Swarovski's longstanding experience and design expertise. A range of customization options for existing motifs is available (see "Customization Possibilities" below). You may also submit sketches of a design to suit your personal requirements – such as a brand image or an image that complements a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which allows for easy adjustments tailored to your needs.

---

**CUSTOMIZATION POSSIBILITIES FOR CRYSTAL MEDLEY**

- Min. size: 19x19 mm or effective surface of 3.61 cm<sup>2</sup>\*
- Max. size: 400x330 mm
- Min. Crystal Medley surface: 9 mm
- Min. width of holes within motifs: 7x7 mm or effective surface of 0.49 cm<sup>2</sup>
- Min. gap between motif outlines: 6 mm

Due to production issues, motifs with edges and angles of less than 90° need to be rounded off. Tolerance value = 1.5 mm. Customers are able to create a mixture out of the Crystal Medley standard color assortment (e.g. big double pointed Chatons in 001 AB, the small double pointed Chatons in 001 AB, and the round uncut elements in 001 CAL).

---

**ORDERING PROCESS**

Send the request with a drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif relates to (Crystal Medley).

You will then receive a quotation including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

---

**IMPORTANT INFORMATION**

Please always submit your drawing of the desired motif in the actual size you require. When enlarged to the desired size, a small sketch will have blurred lines that will make it difficult to correctly reinterpret. Full-scale pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via e-mail or on a CD-ROM. If sending a sewing pattern, please include the whole pattern and not just cut outs. If the sketch is submitted as a hard copy by fax or e-mail, please include a scale legend (e.g. copy/scan with ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Medley Motifs may slightly differ from the sketches or prints in relation to the motifs' outline. Therefore the product may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

If detailed information on possible tolerances is needed (e.g. cavity production for a metal part) please contact Swarovski and an application request will be placed in our application database.

If considered feasible, special productions are generally offered to all our customers. Please note: special productions are subject to acceptance by Swarovski and the order of a design does not automatically grant exclusive production of this design for the customer.

For detailed application information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL) or contact your Swarovski sales office.

\*min. size 17x17 mm (or effective surface of 2,89cm<sup>2</sup>) is possible for customized motifs. Please note: with this reduced minimum size, we cannot guarantee that there will be at least one PP 29 double pointed Chaton on every motif.

---

**APPLICATION ADVICE**

Crystal Medley can be easily applied using a standard heat press. The application parameters are the same as those that apply to Crystal Fabric. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

---

**CARE INSTRUCTIONS**

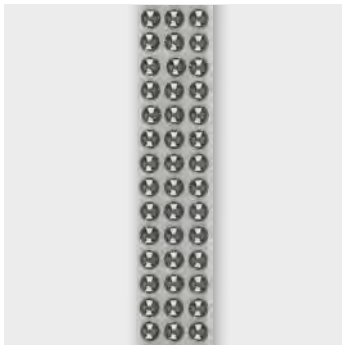

The care instructions for Crystal Medley are the same as those that apply to the Crystal Fabric assortment. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

**62 040 & 62 041 CRYSTALTEX CABOCHON BANDINGS**

An all-time favorite shows its soft side: the **Crystaltex Cabochon Banding** pays tribute to nature and its grandeur. Reminiscent of raindrops, the carrier material is covered either entirely with sleek Cabochons, giving an opaque look, or with a customized blend of Cabochons and crystal.

**APPLICATION ADVICE**

Crystaltext Cabochons can be easily applied using a standard heat press. The application parameters are the same as those that apply to Crystaltext Chatons. In order to protect the crystals' lacquer from damage it is recommended that you apply Crystaltext Cabochons from the back side. If an application from the front side is unavoidable, make sure to protect the crystals from mechanical damage (scratching) by using a pressure compensator (e.g. silicone pad). Please regard that the use of a compensating underlay will extend the application time. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

**CARE INSTRUCTIONS**

The care instructions for Crystaltext Cabochons are the same as those that apply to the Crystaltext assortment, although only hand wash for Crystaltext Cabochons is recommended. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

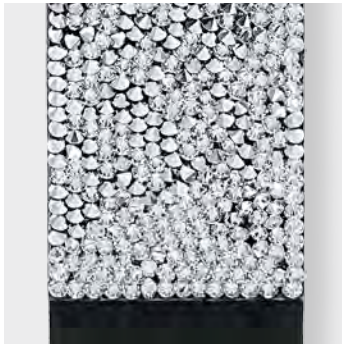

A standard assortment of Transfers or Synthetics (such as Crystal Fabric, Crystal Rocks, Crystal Fine Rocks, Crystaltex, or Crystaltex Chaton) is available pre-applied to Alcantara®, a fabric similar to leather – for a smooth, soft effect, lightweight quality, and myriad application options!

Bandings with Transfers and Synthetics are elegant, fashionable, and easy to handle. Both are sold by the roll, which makes customized cutting fast and easy.

**PRODUCT DETAILS AND CUSTOMIZATION POSSIBILITIES**

The product is delivered on a roll with 22 motifs already applied. The distance between the motifs is 5 cm.

**ORDERING PROCESS**

It is possible to create customized Bandings within the defined standard width and length.

Send the request with a drawing you wish to order to your nearest Swarovski sales office. Make sure you include the measurements of the desired motif (width: 1.5 cm, 2.5 cm or 3.5 cm, length: 15.1 cm, 16.2 cm or 17.4 cm). Please also indicate which product group your special motif relates to.

**Please note that a special production request has to be placed for two-colored Crystal Fabric, Crystaltex Chaton and Crystal (Fine) Rocks special motifs.**

E.g. Art. 88 302

Other color combinations of this standard motif can be ordered normally. In case the customer requires a different two-colored motif, a special production request has to be placed.

**MINIMUM ORDER QUANTITIES**

The minimum order quantity for standard articles is one roll.

For special productions, the MOQ depends on the product and motif used for the banding.

**BANDINGS WITH... COLOR ASSORTMENT:**

For the available Colors & Effects for Bandings with... please refer to the respective color matrix of the corresponding product groups (Crystal Rocks, Crystal Fine Rocks, Crystal Fabric, Crystalstex, Crystalstex Chaton, Transfers) which can be found in the Crystal Collection 2014.

**APPLICATION ADVICE**

The Clover Crystal Button can be applied by hand or using a domestic or industrial sewing machine. When sewing Clover Crystal Buttons, synthetic multifilament threads with a thread count of Nm 80 are most suitable due to their abrasion resistance. Monofilament and pure cotton yarns are not recommended due to their limited abrasion resistance. Please make sure that the transport system is deactivated to avoid any movement of the fabric. After selecting the over edge stitch, the length and width of the stitch must be adjusted to suit the element being applied. Due to the height of the article, using a program for sewing on buttons is not possible and it can only be applied without a standard presser foot.

**CARE INSTRUCTIONS**

The care instructions for the Clover Crystal Button are the same as those that apply to the Crystal Button assortment. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

**APPLICATION ADVICE****Tools for fly press**

The Crystal Fine Rocks Jeans Button can be easily applied by using a fly press. The tools for the Chessboard Button are used for the application:

	Art. 1795/140 
<b>UPPER DIE</b>	Art. 9060/009 
<b>SPARE PART FOR UPPER DIE (INLAY)</b>	Art. 9060/018 

<b>LOWER DIE</b>	Art. 9060/016 
<b>THREAD ADAPTER</b>	Art. 9060/014* 
<b>CHANGING PIN</b>	Art. 9060/015 

\* When using upper die art. 9060/009, please employ the specially developed thread adapter art. 9060/014.

**Application**

1 Place the top part of the Jeans Button in the upper die.

2 Place the arrow pin in the lower die.

3 Position the carrier material and apply. Regulate the offset/pressure using the adjustable stop.

**CARE INSTRUCTIONS**

The care instructions for the Crystal Fine Rocks Jeans Button are the same as those that apply to the Jeans Button assortment. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

## ORDERING EXAMPLE & PRODUCT VARIETY EXPLANATION

53 000 01	004	012	082	001
Article number	3-digit code for number of rows	Color of thread (without net-edge, on 1 side/2 sides):	Color of casing	Color of crystals
01 1 color/stone		012 Black	081 Gold	Please see the respective product matrix for all available code references.
02 2 colors/stone		(without net-edge)	082 Silver	
03 3 colors/stone		022 White	086 Gun Metal	
		(without net-edge)		
		112 Black (on 1 side)		
		212 Black (on 2 sides)		
		122 White (on 1 side)		
		222 White (on 2 sides)		

Please note: Articles with 1 row are only available with one or two side net-edge. The articles 52 001, 52 501, 55 001 and 55 501, however, can be ordered without net-edge.

**AVAILABLE COMBINATIONS**

Flat Back Banding is available in stone size SS 16 and in three different stones types: **Crystal, Ceramics** and **Cabochons**.\* Mix all three stone types and their respective colors to create a unique new look.

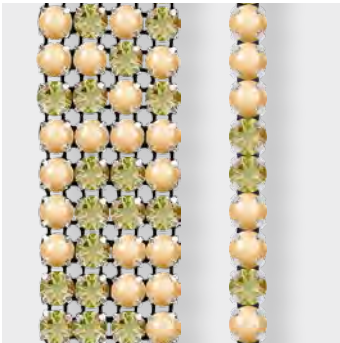

**55 300 03, 55 301 03**

**Choose from the three different stone types and their available colors to create your personal mix and get a unique look. Here are some examples of possible combinations:**

- SS300/03 004 012 001(C) 291 001 AB 001 ROGL
- SS300/03 004 012 001 AB 001 001(C) 291
- SS300/03 004 012 001 001(C) CHRMV 657

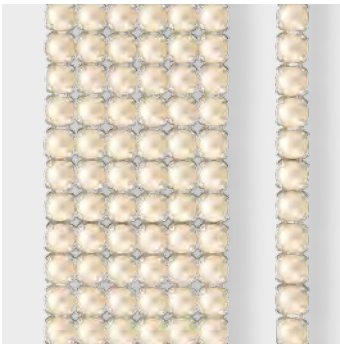

**55 300 02, 55 301 02**

**Examples for the two-component combination:**

- SS300 02/004 012 001 LISH 266
- SS300 02/004 012 001 LUMG 001(C) GSHA

**55 300 01, 55 301 01**

**1 component**

- Choose one stone type in color
- SS300 01/004 022 001(C) 291

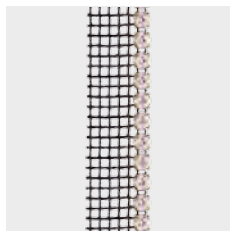

Please note that in the three- and two-stone mix the stones will be placed randomly. Samples are available from 0.5 m - 2.0 m.

\* The color code for Cabochons includes a (C)

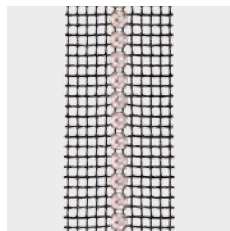

## AVAILABLE OPTIONS WITH NET-EDGE

**APPLICATION ADVICE**

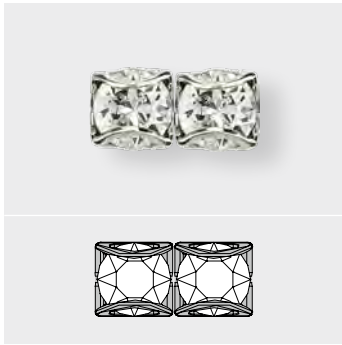

Crystal Fine Mesh can be easily applied using a standard heat press. The application parameters are the same as those that apply to Crystal Mesh (Standard, Aerial, and Metallisée).  
 Due to the tight structure of the Crystal Fine Mesh, it is not possible to sew on this product with a sewing machine, even not by hand. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

**CARE INSTRUCTIONS**

The care instructions for Crystal Fine Mesh are the same as those that apply to the Crystal Mesh assortment. For detailed information, please refer to the Application Manual and our business website [SWAROVSKI.COM/PROFESSIONAL](http://SWAROVSKI.COM/PROFESSIONAL).

**ARTICLE EXPLANATION**

The Chaton Sieve is an application aid especially developed for working with Swarovski Chatons. It perfectly supports the first step of the application process by bringing the Chatons into the necessary starting position.

**Key Features:**

- Allows easy handling of Chatons when arranging them for the application process
- Four cavity sizes on two sieves available for Swarovski Chatons of different sizes
- Perfect aid for gluing and for working with Ceralun™
- Light but durable material (polyurethane)

**Available Sizes**

Two sieves, both containing two differently structured surfaces, have been developed in order to match with Chatons of different sizes. To prevent confusion, each sieve is only available in one specific color.

When working with Chatons in sizes PP 2 – PP 20, the grey Chaton Sieve (art. 9030/001), with its narrow gaps, is the right choice. Work with sizes PP 2 – PP 8 on side one and turn the sieve over when wider gaps for sizes PP 9 – PP 20 are needed. With enough space for handling larger Chatons, the blue Chaton Sieve (art. 9030/002) is created for sizes PP 21 – SS 34. Side one is designed for working with Chatons in sizes PP 21 – PP 30, and side two is used for sizes PP 31 – SS 34.

**Chaton Sieve** for Chatons size PP 2-PP 20 (art. 9030/001)

**Chaton Sieve** for Chatons size PP 21-SS 34 (art. 9030/002)

---

**APPLICATION ADVICE**

- 1 Choose the right sieve type and side for your Chatons. Before starting, make sure the surface is clean by polishing it with lukewarm, soapy water and a soft brush. Dust can be removed with oil-free compressed air. Place some crystals onto the sieve.

- 2 Slightly shake the application aid and wipe over the crystals with glove-covered fingers. The majority of Chatons are automatically turned into the suitable position for gluing or working with Ceralun™ (table pointing upwards).

- 3 As a next step, the Chatons can easily be picked up from the sieve using tools like a wax stick, tweezers, or vacuum pick-up systems. In this way the Chaton Sieve, with its handy size, contributes in making work with small crystals much easier.

## **General Warning**

Loose crystals may present a small parts hazard to young children, particularly children under three years old. Depending on the size of the crystal and any attached material (such as glue, fabric, etc.), children may choke on, inhale, swallow, or insert the crystal into their noses. Magnetic products with crystal applications pose a particular risk of serious intestinal injury if ingested. The application techniques as stated in the Application Manual do not guarantee that crystals will not come loose. For each application, the manufacturer must determine whether the product meets the relevant requirements related to small parts hazards and assess any risk it may pose to small children. Failure to follow Swarovski's care instructions may result in damage to the crystal, which could pose a risk of laceration or other harm.

### **Warning for Crystal Tattoos**

Crystal Tattoos may be applied on healthy skin only. Do not adhere to eyes or on mucous membranes. Crystal Tattoos are not recommended for young children. Loose crystals may present a small parts hazard to young children, particularly children under three years old. If a crystal comes loose, depending on the size of the crystal, children may choke on, inhale, swallow, or insert the crystal into their noses.

### **Warning for Tableware**

Application of loose crystals to tableware presents a potential risk of aspiration, choking, swallowing, or tooth damage should crystals become loose. To reduce this risk, crystals should never be applied to any surface of tableware likely to come in contact with food or the mouth, and crystals should never be placed on any tableware intended for use by children. Tableware with crystals intended for decorative use only should be marked as such. To avoid dishwasher damage, tableware decorated with crystals should be washed by hand. The application techniques or suggestions in this manual do not guarantee that crystals will not come loose. For each application, the manufacturer must determine whether the product meets relevant requirements related to small parts hazards or use in food contact items and assess any risk it may pose to users. The use of crystals (which may contain restricted substances deemed hazardous under local laws) and adhesives on tableware is subject to legal restrictions in specific countries. The customer is fully responsible to comply with these country-specific provisions and shall defend, indemnify, and hold Swarovski harmless from any and all third-party claims based on product liability or otherwise relating to uses of Swarovski products and waives all its own claims against Swarovski.

### **Notice for Application on Packaging**

The use of crystal that may contain substances like lead, cadmium or hexavalent chromium, on packaging is subject to legal restrictions in specific countries, including but not limited in regard to the total content of substances based on the proportion between crystal mass to the remaining weight of packaging. The customer is fully responsible to comply with these country-specific provisions and to pass on this information to his customers.

## **Care Instructions**

Failure to follow Swarovski's care instruction may result in damage to the Swarovski product, which could pose a risk of laceration or other harm. Please be informed that all conventional laundering processes (household washing machine as well as professional dry-cleaning) have a considerable mechanical influence onto the garment, which is based on the rotation of the washing drum. The essential requirement for a safety laundering process is that the Swarovski products are properly applied without restrictions regarding the adherence of the Swarovski products. The bigger the size of the used Swarovski product is and the more Swarovski products are applied next to each other, the more a risk of damage has to be taken into consideration. Swarovski products are made of or incorporate crystal and therefore must be handled with due care! Generally, to best protect the Swarovski products from breaking we recommend the use of a soft washing bag and to fill up the washing drum. Turning inside out before washing and selection of a gentle washing program, plus the use of mild detergents are important prerequisites to safeguard the quality of our Swarovski products. Our care instructions based on DIN EN ISO 3758 list up all Swarovski product groups as overview so that each used Swarovski product still needs to be judged in terms of its cleaning suitability for the intended purpose and finished product by the customer. Swarovski's recommendations are given according to the current state of our knowledge and Swarovski's determination of the qualification as textile application product. The customer is therefore fully responsible to determine the cleaning process applicable to the finished product, taking the Swarovski care instructions as well as those of third party materials into account. The variety of shape, cut, surface effect, size and application weight respectively amount of used Swarovski products are decisive for the determination of the suitable cleaning process. To be entirely safe customers respectively dry-cleaners usually take off Sew-on Stones, Buttons, etc. of bigger size before cleaning and re-apply them afterwards.

### **Unsuitable Applications**

Crystals from Swarovski are intended for use in the fields of fashion, jewelry, accessories, textile products, and for interior décor. Due to their physical properties, crystals from Swarovski are unsuitable for other uses (e.g. gluing onto teeth, using crystals on or near mucous membranes, and other unsafe uses). The customer shall defend, indemnify and hold Swarovski harmless from any and all third-party claims based on product liability or otherwise relating to uses of Swarovski products purchased by the customer, and waives all its own claims.

### **Responsibility of User**

Any oral, written, or test-based advice that Swarovski provides regarding techniques for application of its products are recommendations based on Swarovski's current knowledge and the information provided by its suppliers. Such advice does not discharge the customer from carrying out its own tests of techniques it proposes to use and their suitability for the intended application. The application, use, and processing of these techniques and products are solely the user's responsibility.
